# Increase Efficiency and Protect Your Bottom Line

Subcontractors are always juggling. You are constantly working under tight deadlines that are often out of your control. Not to mention daily pressures of monitoring costs, minimizing delays, managing teams and reducing project risks. Sometimes, the possibility of not getting paid on time is very real.

Subcontractors must be able to track projects closely to meet multiple demands.

With over 133,000 active projects, Kahua's Program Management Information System has experience helping subcontractors meet these challenges. Leveraging decades of subcontractor experience, Kahua's Subcontractor Project Management was purpose-built by the founders of Project DocControl with the subcontractors' needs in mind.

Keep your finger on the pulse of your business with summaries that capture high volumes of data across all your projects. Easily digestible reports give you superior insight into company performance so you can see the forest through the trees. Kahua's platform allows subcontractors to run business at peak efficiency so you can win more business, protect project margins and create a competitive advantage.

Document Management for Subcontractors:

- Change Order Requests
- Field Observations
- Daily Reports
- RFIs
- Submittals
- Work Orders
- Dashboards
- Communications

"When operations can run smoother, subcontractors see big benefits and get big results."

kahua | SUBCONTRACTORS

Connectivity

Access your data wherever you are and link field to office with desktop and mobile capabilities. Cloud-based file management enables team members to capture field observations and share files with simple, intuitive interface.

Real-Time Updates

Keep up with constant changes and access live data for more accurate decision making.

Accountability and Visibility

Tag observations to project locations and assign tasks to responsible parties to manage "ball in court." Quickly identify any questions holding you up to ensure timely responses.

Own Your Own Data

Maintain accurate history with organized project records, files, documents, drawings and media in an easily accessible central repository.

Collaboration

Streamline communication with general contractors and owners to keep everyone on the same page.

Flexibility

Tailor to your specific business practices and create unique workflows leading to the next step so you can run your business the way you need.

Rapid Implementation

Out-of the-box capabilities get you up and running quickly to minimize time to value and maximize return on investment.

Central Source of Truth

Consolidate multiple point solutions and manage all your contracts in the same system. Request input and track responses from multiple team members and incorporate into a single consolidated report.

Scalability

Kahua's platform can grow with you as your business changes.

Cost Control

Connect business processes so you can manage pay applications, track vendor purchase orders and create Schedule of Values.
